The Schaefer's are a family of farmers, loggers and quarrymen from Deposit, NY. The company crew operates throughout the Catskills and the Southern Tier to supply their circular sawmill at Cannonsville Lumber, Inc. Among the first to obtain TLC[®] certification for their crew when the program started in 1994, the Schaefer's continue to advocate for New York Logger Training. This photo was taken from a recent forest management project near Walton, NY.

TLC[®]...Easy as One, Two, Three

Trained Logger Certification (TLC[®]) is a voluntary program to promote safe, productive, and sustainable timber harvesting in New York State. Administered by New York Logger Training (NYLT), TLC[®] recognizes loggers who receive education in three "core" areas of knowledge and skills:

1. Chainsaw Safety, Operation and Productivity
2. Best Management Practices, Forest Ecology & Silviculture & BMPs
3. Adult First Aid/CPR

Stay Certified

To maintain TLC[®] status, loggers attend three continuing education courses over the three-year certification period (that's only one course per year), in addition to maintaining a current CPR certificate.

Benefits of TLC[®] certification in the NYC Watershed

- ✓ \$5/MBF premium for loads delivered to participating mills (see list).
- ✓ Free roadside TLC[®] job site sign to advertise your services (shown above). Call (607) 865-7790 ext. 101 to arrange for delivery.
- ✓ Payment bonuses from the WAC Forestry Program for Best Management Practices used in watershed timber harvests.
- ✓ OSHA-approved Logger's First Aid Kit to each newly certified logger.
- ✓ One pair of safety chaps to each logger who renews TLC[®] certification.
