

EAST OF HUDSON AGRICULTURAL PROGRAM

Agricultural Environmental Management Tier I Inventory

The Watershed Agricultural Council has initiated a voluntary Whole Farm Planning Program to provide direct out-reach and technical assistance to farm operations in the New York City watershed.

The following survey includes questions about farm type, number of animals, acres of pasture and cropland as well as questions about potential environmental concerns on the farm. The answers will help us prioritize environmental issues as to whether your farm may be eligible to receive Program funding and technical assistance. All information provided will be kept confidential.

Please take a few minutes to fill out this questionnaire and return it to the address shown below. After your survey is received, you may be contacted to schedule a visit to your farm to assess the need for future technical assistance.

Date

Name of Landowner

Name of Farm

Address (include Road Name)

Town

Telephone (day)

County

(evening)

I. Basic Farm Information

What is the purpose of the farm? primary enterprise secondary enterprise hobby
