Nutrient Management Intern/Temporary Employee Job Description

The Nutrient Management Intern will assist the nutrient management team in serving farms within the New York City watershed. The intern will be exposed to a nationally recognized Whole Farm Planning Program and be able to observe best management practice implementation.

Duties and Responsibilities:

- Collection and submission of soil samples
- Collection of field data.
- Assist planners in collecting information; including but not limited to manure spreader calibration, manure samples, and field data.
- Maintain, in good condition, any equipment associated with the position.
- Act as a liaison between the planning teams and producers as directed.
- All other duties as assigned.

Basic Requirements:

- Minimum of high school education.
- Must have own dependable vehicle with proof of insurance.
- Must have a valid N.Y.S. driver's license.
- Self-Driven and motivated individual.

Reporting Relationships:

- Works under the direct supervision of the Nutrient Management/Precision Feed Management Coordinator or his/her designee.
